What is ComfyUI

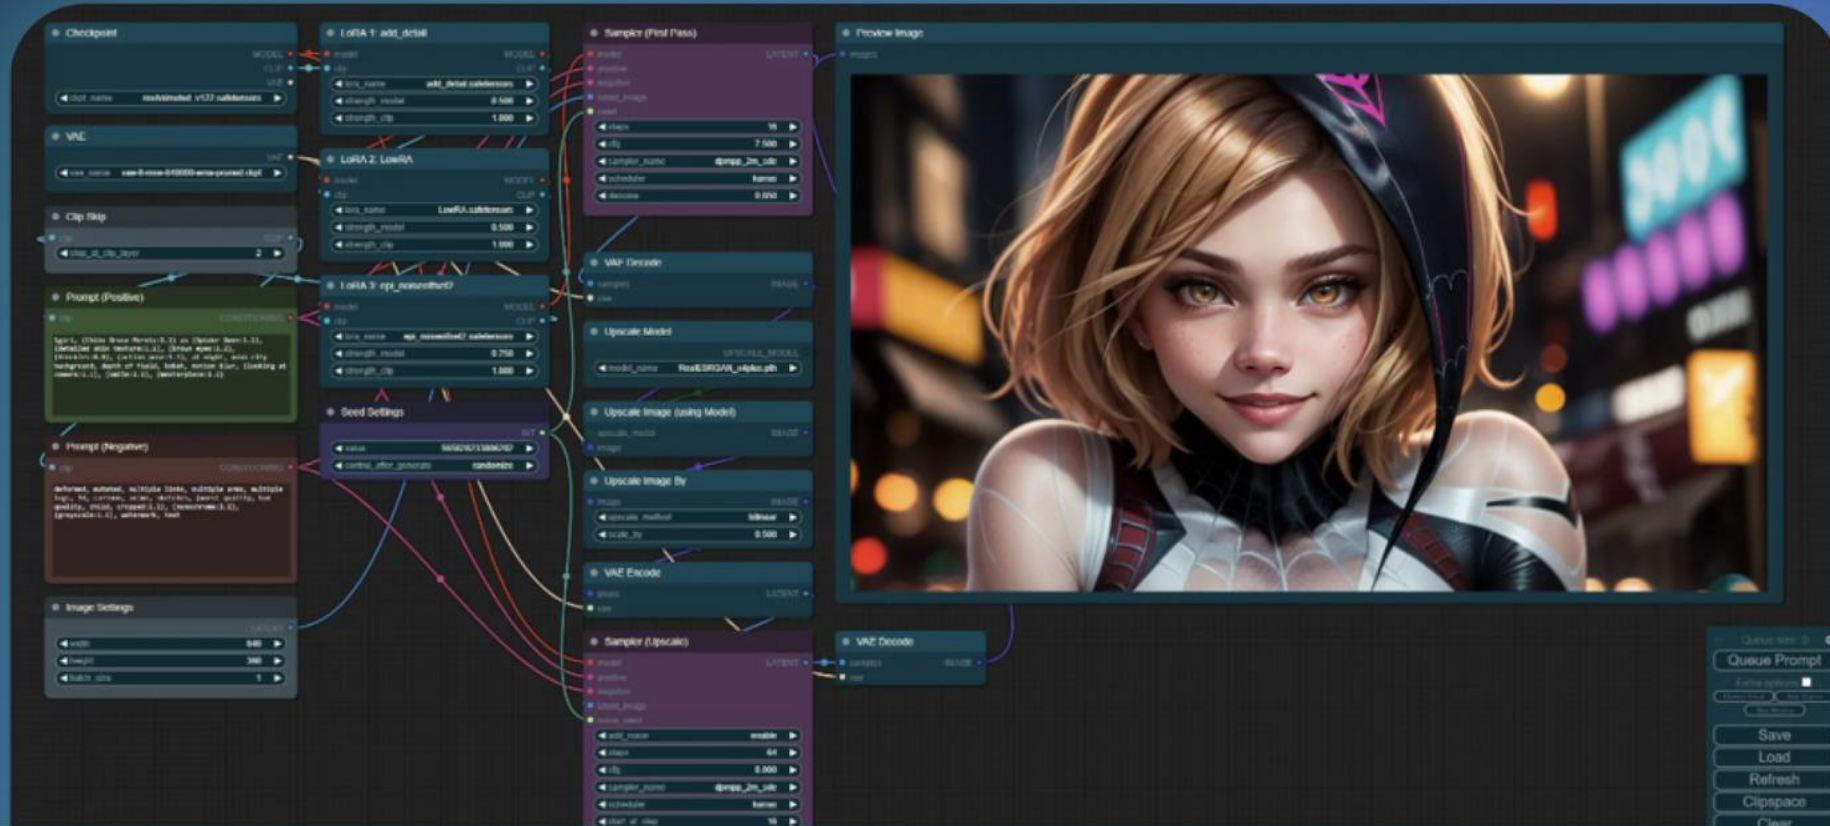

Dev AI

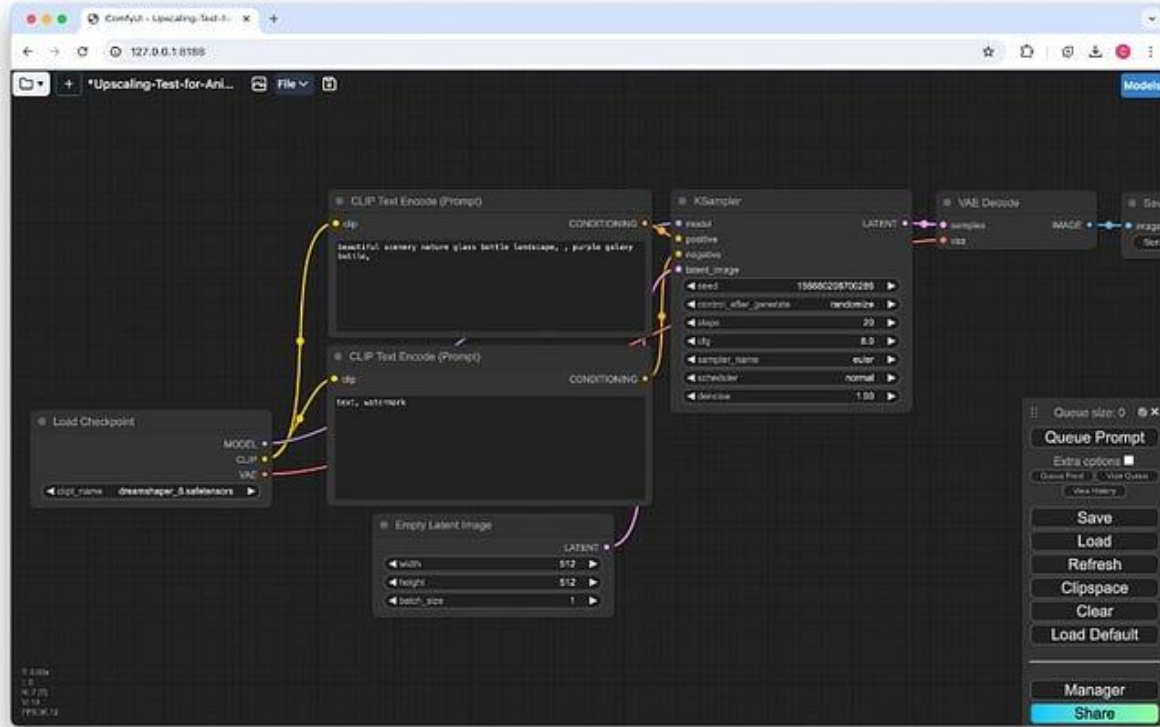

Use AI

ComfyUI

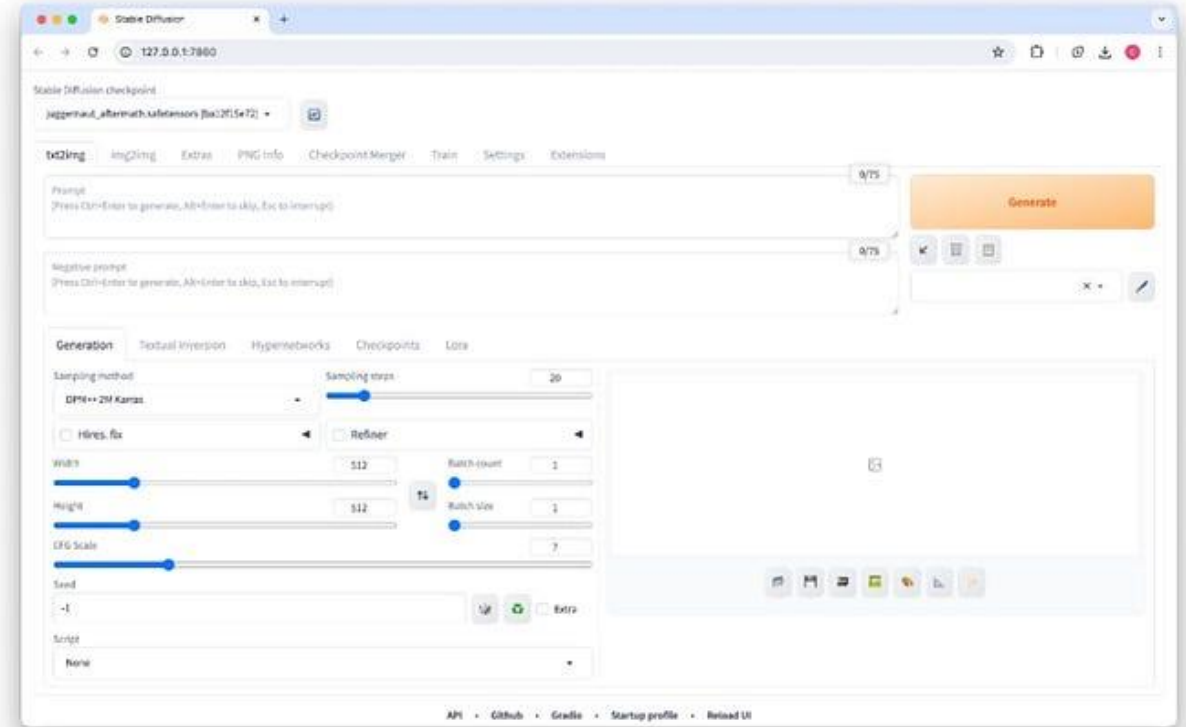

AI IMAGE GENERATION MADE EASY

Comparing Interfaces

ComfyUI

Automatic1111 WebUI

ComfyUI Installation

1. Clone <https://github.com/comfyanonymous/ComfyUI.git>
2. Install foundation libs: `pip install torch torchvision torchaudio --extra-index-url https://download.pytorch.org/whl/cu121`
3. Install requirements.txt
4. Run, explore UI

ComfyUI Manager

1. Clone <https://github.com/ltdrdata/ComfyUI-Manager> into Custom_Nodes folder
2. Run, install new nodes (random/dynamic prompt)

Create new custom node

1. Create resize node (not AI)
2. Re-run, try
